The Party of the First Part hereby expressly excepts from this conveyance and reserves unto itself, its successors and assigns, a perpetual easement, right of way and right of ingress and egress in, over, upon and across land under the 230 Kv. transmission lines. Said easement and right of way is reserved for the purpose of erecting, maintaining, repairing, operating and removing said transmission lines or any part thereof. This easement specifically applies to parcels of land in Sections 18, 19 and 20 of Township 22 South, Range 68 East, described in detail as parcels 1, 2 and 3 in Deed No. 521823, recorded in Book of Deeds No. 60, page 543, in the County Recorder's Office of Clark County.

There is expressly reserved unto RECONSTRUCTION FINANCE CORPORATION, its successors and assigns, all minerals and all mineral rights which may be located upon or under the real property hereinabove described, together with the right to enter upon, prospect from, mine and remove such minerals; provided, however, that any development of the property for mineral purposes shall be conducted in such a manner as to not unreasonably interfere with the use of this property as an industrial site.

THIS CONVEYANCE is made subject to all other rights of way and easements now in existence over, under or upon the property hereinabove described.

Under Paragraph 7 of the Agreement of Sale, dated May 23, 1952, made between the parties hereto (and incorporated herein by reference), the Seller herein assigned to the Purchaser herein, and the latter assumed the obligation to perform and furnish the services therein stipulated insofar as the Colorado River Commission is legally obligated under the contracts and agreements therein set forth. In addition thereto, the Purchaser hereby covenants, and agrees that this covenant shall run with the land and that it will furnish such services by, through and over the systems, facilities and properties conveyed by this deed to: (a) the lessees and purchasers of the Basic Magnesium Project existing on June 1, 1952; (b) their successors and assigns; and to (c) purchasers or lessees who acquire contract rights to portions of the project through foreclosure proceedings, or under new contract commitments, such as leases or new leases, growing out of defaults under or termination of

387352

existing lease and purchase contracts and agreements. Such covenant to furnish such services shall continue to April 1, 1968, or until the purchase money, amounting to \$24,021,425.00 specified under the Letter of Intent, dated March 17, 1948 between Reconstruction Finance Corporation (acting through War Assets Administration) and the Colorado River Commission has been paid in full, whichever occurs the earlier; PROVIDED, HOWEVER, this covenant shall not limit or derogate any greater, larger or longer obligation to furnish utilities by the purchaser than may arise by operation of law, or by contracts referenced in Paragraph 7 of said Agreement of Sale, above mentioned.

EXECUTED this 1st day of JUNE, 1952.

The last above described portion of the plant under lease to Western Electrochemical Company is transferred subject to the following terms and conditions:

- "1. The plant is considered a war reserve plant and as such will be of vital interest to the nation in time of emergency.
2. A dormant estate for a period of twenty years is reserved by the Government, which dormant estate may be activated for one or more periods not exceeding five years duration each. At the completion of the twentieth year, the grantee will have clear and complete title.
3. The grantee, or the Secretary (as hereinafter defined), may at any time cause a re-examination of the necessity for continuing the dormant estate upon the plant or any portion thereof. Such estate may be discontinued at any time during the twenty-year period when the Secretary determines such action consistent with the national defense interests of the United States.
4. The dormant estate may be activated by the Secretary at any time prior to the expiration of the twenty-year period, by written instructions to the grantee, whenever, in the opinion of the Secretary, considerations of national defense so require. In the event the dormant estate is so activated, the Government shall have the right to full possession and use of the plant.
5. When, in the opinion of the Secretary, it becomes necessary for the Government to utilize the productive capacity of the plant for purposes of national defense, the Government will undertake to negotiate a satisfactory contract with the grantee provided such grantee is, in the opinion of the Secretary, qualified to perform the work desired. In the event a mutually satisfactory contract cannot be negotiated with the grantee within a period of fifteen days the Government may proceed to activate the dormant estate.

6. The grantee, upon receipt of written notice that the dormant estate has been activated, will immediately proceed to remove improvements, fixtures, alterations, machinery and other equipment, in accordance with the directions and instructions in such notice. Such action will be completed in the shortest possible time but in no case in excess of 120 days from the date written notice is received. Thereafter, the grantee will immediately vacate and peaceably surrender possession of the plant to the Government and will permit the Government to have the use of such easements and rights of way over and upon the property of the grantee as may be necessary or convenient for the operation of the plant.
7. In the event the dormant estate is activated, the Government will pay to the grantee:
 - (a) Reasonable costs and expenses in connection with restoring the plant to its condition at the time of sale or in performing other work, to the extent required by directions and instructions received from the appropriate Secretary.
 - (b) Reasonable costs of re-installing the grantee's machinery, equipment and improvements when possession of the plant by the Government is relinquished to the grantee.
 - (c) Fair compensation for loss incurred on work in process in the plant which cannot be completed due to the activation of the dormant estate.

The government will not compensate the grantee for losses and damages other than herein provided.

8. During the period or periods that the dormant estate is activated, the Government will pay the grantee compensation at a rate to be fixed by the Secretary which rate shall not be in excess of the prevailing normal rental for similar industrial properties.
9. During the twenty-year period, the grantee will not, without the written consent of the Secretary, make alterations to the structure of the buildings and will not move or alter any non-severable building, installation or land improvements, which alterations will impair or diminish the capacity, existing at the time of sale, of the facility to produce the items for which it was designed unless restoration can be made within a period of 120 days or less, or unless other facilities determined by the Secretary to have equivalent productive capacity are made available and are made subject to all provisions of this National Security Clause, including the extension or modification of this contract in writing.
10. The grantee will not, without the written consent of the Secretary, remove, sell or dispose of any of the machine tools or other severable production equipment in the plant and belonging to the Government at the time of sale, the loss of which would materially reduce the capacity of the facility to produce the items for which it was designed, during the period of maintenance specified in paragraph (11) unless replacement is made by equivalent machine tools or other severable production equipment.
11. The grantee will maintain all lands, structures, appurtenances, machine tools and equipment now in or appurtenant to the plant and belonging to the Government at the time of sale, throughout the periods specified below, in such condition that the plant can be put into efficient operation for its intended defense use in the shortest possible time but in no case in excess of 120 days; provided, however, that the contractor shall not be obligated hereunder

to retain or replace any facility after the expiration of the period of maintenance hereinbelow specified; and provided further that nothing contained in this agreement shall be construed to prevent the grantee, for improving operating efficiency or increasing productive capacity, from moving any of the machine tools or readily severable facilities conveyed hereunder from place to place within the plant.

<u>Facility</u>	<u>Period of Maintenance</u>
(a) Lands, permanent structures and appurtenances (Main structural frame of metal, concrete or masonry)	20 years
(b) Timber structures and their appurtenances	15 years
(c) Machinery, Machine Tools and Equipment	10 years

12. The Secretary shall have the right to conduct an inspection or survey of the plant at any time, subject to prior written notice thereof to the grantee.
13. When, in the opinion of the Secretary, the grantee fails to comply with the obligations imposed upon it hereunder, the Government shall have the right to take full possession of the plant and to take such action as may be necessary to remedy the grantee's default. All costs incidental to taking possession of the plant under these circumstances and of the work performed or action taken under the direction of the Government, shall be borne by the grantee. Upon completion of such work, possession of the plant will be returned to the grantee unless the dormant estate is activated in the interim.
14. In the event the plant is destroyed or otherwise substantially damaged prior to the expiration of the twenty-year period, the Secretary will review the necessity for retaining the dormant estate. In the event it is determined by the Secretary that the dormant estate no longer need be retained in the interest of national defense, a quit claim deed will be given to the grantee.
15. As used in this agreement the term "Secretary" shall be deemed to refer either to the Secretary of the Army, the Secretary of the Navy or the Secretary of the Air Force, and to their respective duly appointed representatives, depending upon which of said departments had jurisdiction and control over the plant prior to its declaration as surplus, or to such of said three Secretaries as may have been designated by the Munitions Board. The term "Grantee" shall be deemed to refer to the grantee hereunder, its successors, assigns and any subsequent transferee or transferees of the plant. The term "plant" refers to the property sold, conveyed and transferred hereunder and to any part or portion thereof.
16. The grantee shall cause this agreement to be duly and properly recorded so as to put third persons upon notice of the Government's interest in the plant hereunder and shall furnish evidence of such recordation to War Assets Administration."

The Party of the First Part hereby expressly excepts from this conveyance and reserves unto itself, its successors and assigns, a perpetual easement, right-of-way and right of ingress and egress in, over, upon and across land hereby conveyed under the 230 KV transmission lines and other installations comprising the main electrical transmission system referenced in paragraph number 4 of the exceptions and exclusions to this conveyance. Said easement and right-of-way is reserved for the purpose of erecting, maintaining, repairing, operating and removing said transmission lines and main electrical transmission system, or any part thereof. In addition to this general reservation of perpetual easement and right-of-way, the grantor hereby specifically reserves a like easement for the same purposes over, upon and across the following described property:
